

**ITC Labs**  
Assuring Integrity, Trust & Confidence

## Your Challenge:

The quality of the drugs and pharmaceuticals has been a matter of concern for the regulatory bodies like WHO, FDA, CDSCO (Central Drugs Standard Control Organisation) etc since their inception. It is the important since it is directly linked with the human lives. Over the past decade, failure of regulatory compliance has resulted in numerous hospitalizations and deaths attributed to contaminated products. The suppliers, formulators and manufacturers need to ensure that their products meet acceptable standards of quality, safety and efficacy as per the respective country regulation and / or Pharmacopoeia requirements. Under these situations, it is very important for the industry to work with a reliable partner for the testing of Pharmaceuticals products and its ingredients.

## Our Solutions:

ITC lab is one of the leading laboratories in the fields of Drugs & Pharmaceuticals testing with maximum number of Government contracts under its belt from all over India. The lab is approved by the State Drug Controller Authority and also possesses a valid Good laboratory Practice (GLP) license. The lab is spread across 10,000 sq ft area and is equipped with most modern and state of the art modern equipments. The lab operations are completely computerized through LIMS (Laboratory Information Management Software) to offer most accurate and fastest test results. We work with most of the big names in the industry.

Our solutions span from routine Physico, Chemical and Microbiological testing to specialised and complex Method Validation studies. Some of the services offered include but not limited to:

- Pharmacopoeia Testing (IP/USP/BP/EP/JP)
- Raw Material & Finished Product Analysis
- Active Ingredients Assays
- Release Testing
- Impurity Content (Related Substances/Residual Solvents)
- Uniformity of Content
- Dissolution Profile
- Viscosity & Specific Optical Rotation
- Physical Testing
- Degree of Polymerisation & Melting Point Analysis
- Particle Count Analysis (For Dry & Wet)
- Microbiological Tests : BET, MLT, AET, PET, Sterility, Environmental Monitoring, Water Testing as per regulatory requirements
- Environmental Swab Testing
- Method Development and Validation & others.

ITC lab is recognized by bodies like NABL, BIS, FSSAI, APEDA, AGMARK, MoEF, DRUG CONTROLLER, GLP, ORGANIC etc. to help clients meet complex requirements that the product should meet before being placed in the market.
